THE CUBAN QUESTION

Discussion In the Senate Became Very Spirited at Times.

ADMINISTRATIONS ARE COMPARED.

Senator Gallinger Introduces Various Amendments to the Tariff Bill Increasing the Rates on Certain Articles-Nominations Confirmed.

Washington, May 12.-The Cuban question occupied the entire attention of the senate, the debate taking a wide range and at times becoming spirited when comparisons were made between the attitude of the former administration and the present one on the subject of Cuba. Senators Morrill of Vermont and Caffery of Louisiana spoke in opposition to the resolution, Senators Lodge of Massachusetts and Foraker of Ohio advocated deferring the question until further information could be secured from the state department, and Senators Mills of Texas and Allen of Nebraska urged the immediate passage of the resolutions.

The debate went over. Senator Kyle (Pop.) of South Dakota, rising to a question of privilege, disclaimed having sought committee places from Republican senators. A partial conference report on the Indian appropriation bill was agreed to.

Senator Warren introduced a bill granting land to the states west of the one hundredth meridian for normal school purposes. The bill grants 109,000 acres for each senator and member from the states affected by it.

Some Tariff Amendments. Senator Gallinger introduced amend-

ments to the amendments suggested by the senate committee on finance to the tariff bill increasing rates as follows:

Chloride of lime or bleaching powder from one-fourth to one-half cent per pound; dressed building stone from 50 to 60 per cent ad valorem; surface coated papers from 2% cents per pound and 15 per cent ad valorem to 5 cents per pound; surface coated papers, printed, from 3 cents per pound and 20 per cent ad valorem to 5 cents per pound and 20 per cent ad valorem; Portland cement in packages from 5 to 121/2 cents per 100 pounds and in bulk from 7 to 10 cents per 100 pounds.

In executive session the senate confirmed the following nominations:
Stanford Newel of Minnesota to be minister to The Netherlands; Edward G. Bradford, United States district judge of the district of Delaware; George Moulton, Jr., collector of customs of the district of Bath, Me.; Henry A. Castle of Minnesota, auditor for the postoffice department; Samuel B. Grubbs of New York, assistant sur-

geon in the marine hospital service. Sundry Civil Bill Passed. The consideration of the senate

amendments to the sundry civil appropriation bill was finished by the house and the bill sent to a conference. President Cleveland's forest reservation order was the subject of much debate, and the house voted not to concur in the senate amendment to annul the order, with the understanding that the conferees should arrange an amendment which would have the same ef-

Mr. Hitt of Illinois, past and prospective chairman of the committee on foreign affairs, earnestly urged the importance of taking steps to confirm the title of this government to the harbor in view of the senate proposal to abrogate the Hawaiian treaty.

He was supported by Messrs. Cummings of New York, Henry of Connecticut, Parker of New Jersey and Simpson of Kansas and opposed by Messrs. Cannon of Illinois, Sayers of Texas, Hilborn of California and Walker of Massachusetts.

The house decided to concur in the amendment which gives the president power to appoint the 12 mineral land commissioners, thus taking them out of the classified service, and the provisions for four new commissioners and four deputy marshals for Alaska and for continuing the investigation of the

Cuban Correspondence Sent to Senate. Washington, May 12.-The president has sent to the senate a report by the secretary of state containing the state department's translation of the letters written by General Gomez of the Cuban army to President Cleveland in February last and to President McKinley in March, appealing for the sympathy and support of this country. The letters are the same which were published

only on account of the fact that the translations were evidently made by different persons. In the same communication the secretary takes up the report that Cuban authorities have refused to permit the consul of the United States at Sagua La Grande to communicate with Consul General Lee at Havana by means of

six weeks or two months ago, differing

cipher dispatches. He says the consul did receive such prohibition from the mayor of Sagua La Grande, but that the mayor was promptly reprimanded, upon a protest by General Lee, by the governor general. A copy of the governor general's letter is transmitted. He says the mayor misinterpreted his instructions not to allow personal cipher dispatches to be sent without seeing the code used. but that in order to avoid a repetition of such acts he has ordered that "the mayor be severely reprimanded and that the governors and mayors be hereafter instructed not to obstruct official telegrams addressed to United States commercial agents or consuls in this island and their superiors or inferiors."

rence neither the department nor the United States consuls in Cuba have experienced any difficulty in the matter of telegraphic correspondence.

ATTEMPT AT SUICIDE.

A Condemned Prisoner Jumps From a

Train on His Way to Jail. Baltimore, May 12.-John A. Coler of Glencoe, Pa., under sentence to serve 15 years in the Maryland penitentiary for forging Union Pacific bonds, made a desperate and probably successful attempt to commit suicide by jumping from an express train on the Baltimore and Ohio railway while the train was

going at full speed. Coler was sentenced in Cumberland, Md., and almost immediately after took poison in the jail, but was pumped out, and a deputy sheriff started to bring him to Baltimore. He was handcuffed to the deputy, but made an 'excuse to leave his seat, and upon returning struck his captor a terrific blow with his manacled hands and before he could be stopped sprang through a win-

He turned half a dozen somersaults as he fell. The train was stopped, and the conductor and deputy sheriff found him lying by the track unconscious. The physicians at Maryland General hospital say he sustained injuries which will probably prove fatal. He had previously served nine years in another state for forgery

Crew of a Schooner Saved.

New York, May 12.-The schooner Thomas N. Stone of Boston, Captain Newcomb, left Philadelphia on April 26 for Kingston, Jamaica, laden with coal. At 6 p. m. on May 1 the vessei was found to be leaking badly. Pumps were started and all efforts made to locate and stop the leak, but to no avail At 10 p. m. of the same day, with eight feet of water in the hold and gaining fast, Captain Newcomb and his crew of six men took to the boat. For four days they were adrift in the boat, but suffered no hardships. On May 5 the British bark Africa, Captain Davison, from Montevideo for New York, picked them up and brought them to this

CUBANS VICTORIOUS. GREECE SURRENDERS

Jail Attacked In Havana Province and Prisoners Liberated.

A BATTLE NEAR PINAR DEL RIO.

The Spanish Cavalry Are Attacked by the Insurgents and After a Severe Engagement Escape With a Heavy Loss. General Weyler's Close Cali.

Havana, May 12.-A raid was made on Casqua, in Havana province, on Friday, and the jail was broken open. Fifteen prisoners who had been kept there a long while were liberated. There were seven women and eight men. Among the men were two insurgent officers who had been sentenced to be shot on Saturday.

At the jail the insurgents found a little boy aged 7 years who had been imprisoned over six months in the vile place simply because he had worn a Cuban flag on his shirt waist one day. The boy was emaciated and could hardly stand when taken out.

A letter has been received here from General Ducassa. He reports that on the outskirts of Pinar del Rio City he encountered a large force of Spanish cavalry, and a running fight of several nours' duration ensued. The Spanish force retreated toward the forts. A part of Ducassa's force got between them and the forts, and a most determined fight followed. The Spanish cavalry charged again and again upon the insurgents, but they were well posted. and the Spanish could not make any headway. The Spanish were cooped up in a depression between hills and were exposed to a most galling fire from the insurgents.

Spaniards Sent to the Rescue.

The firing attracted the attention of Pinar del Rio city, and 500 Spanish were sent to the rescue. These attacked the smallest band of insurgents and opened a way for the imperiled Spanish to escape. Notwithstanding the Spanish forces greatly outnumbered the Cubans. they did not offer to renew the fight, but retreated in hot haste. It is said that their loss was 100 or more. Large quantites of arms and 65 dead bodies were found on the field.

General Weyler is reported to have had a narrow escape in the western part of the island recently. When leaving San Juan with a smaller escort than usual, a Cuban squadron of cavalry attacked them, and nothing but fleet horses saved them. It is said that Weyler had a half hour's ride for life, and that he was very much chagrined at this incident after his reports of pacification in that part of the island.

Insurgents Growing In Numbers.

Washington, May 12.-The state department is in receipt of a report from Consul General Lee, dated the latter part of April, in which he deals with the general situation in Cuba and presents all the facts at his command without making any recommendations as to the policy to be pursued by this government. In this report General Lee states that the insurgents are not decreasing in numbers, but that, according to the most trustworthy information at hand and to all appearances, there are more of them now than when he went to the island.

He explains the apparent want of organization by the statement that it is against the Cuban policy to conduct the war after the accepted modern ideas on

The Cubans believe they can be most effective by pursuing their present method. General Lee also dwells upon the condition of affairs in the island.

Defective Work on the Canal.

Lockport, N. Y. May 12.-An examination of the recently constructed and defective sluiceway by a professional diver engaged by E. H. Bennett, the contractor, shows that the huge timbers have been sprung so badly as to render them useless and that 78 feet of the sluiceway will have to be removed in order to permit the use of both sets of locks. The diver at 1 o'clock began the work of sawing the immense timbers under water. As matters now stand, preparatory work on the new lift locks will be delayed until navigation

Distillery Sold.

Chicago, May 12.-In accordance with the orders of the court, Receiver John McNulta of the Distilling and Cattle Feeding company has sold the Calumet distillery, part of the assets of the old Whiskey trust. The price paid for the plant is \$250,000, for which sum it was knocked down to Levy Mayer, who represents as attorney the reorganization of the trust. The only other bidder was Attorney A. A. TURKEY ASKED FOR AN ARMISTICE.

Constantine's Brave Talk to His Defeated and Crestfallen Soldiers-The Porte Denies the Rumors of a Holy War.

Athens, May 12.—The note of the powers has been presented by M. Onou to M. Skoloudis. The following is the text of the document:

"The representatives of France, Italy, Great Britain, Germany and Austria charge M. Onou, the representative of Russia and the doyen of the diplomatic corps, to declare in the name of their respective governments that the powers are ready to offer mediation with the view to obtain an armistice and smooth the difficulties actually existing between Greece and Turkey on condition that the Hellenic government declares it will proceed to recall its troops from Crete, adhere formally to autonomy for Crete and accept unreservedly the counsels which the powers give in the interests

of peace." The reply of the Greek government was as follows:

"The royal government, in taking the note and declaration of the Russian representative, acting in the name of the ministers of the powers, declares it will proceed to recall the royal troops from Crete, adheres formally to autonomy for Crete and confides the interests of

Greece to the hands of the powers." So soon as the reply of Greece to the note of the powers was handed to the representatives of the powers the latter telegraphed the Greek decision to the representatives of the powers at Constantinople, with the request that they obtain an armistice, with the view of arranging for permanent peace.

There is a sense of relief in Athens at the prospect of an immediate end to the calamitous war. There is no excitement, and no popular demonstration is anticipated.

Constantine's Brave Talk, Crown Prince Constantine issued the following address to the troops at Do-

"Soldiers-The Greek army retired to Domokos because our positions at Pharsala were not strong enough against an enemy greatly superior in numbers, but the positions you occupy here are so strong that our army may be considered invincible. I am confident you will be able not only to repulse with success every attack of the enemy, but you will shortly be able to take the offensive and compel him to abandon Greek

territory. Remember, you defend the sacred soil of the fatherland and the honor of the king and nation. The enemy must not be allowed to make a farther step into Greece. I know you have suffered and are still suffering many privations after having been obliged to fight so many days, but we must endure these privations patiently, confident that we are doing our duty to our fatherland.

Outrages Committed by Turks. London, May 12.-The Athens corre-

spondent of The Daily Chronicle says: "M. Ralli, the premier, has shown me dispatches and reports from Colonel Manos and various civil authorities in Epirus showing that 14 villages between Toulour and Kastrosykia have been burned by the Turks after all the women and children had been massacred except a few who hid in the fastnesses of Mount Zalongas, famous during the war of independence, and a few more who concealed themselves in the marshes along the shore and finally managed to get on board the Greek ships, half dead from hunger and fear. 'Not a stone of the village of Kamarina is left standing. The men fought like lions in defense of the women, who sought refuge in the woods and caves of Mount Zalongos, and when chased by the Turks jumped from precipices

Arta, May 12.-It is reported that the Turks have severed the arms and legs of all the Greeks found in a village on the plain of Louros and left the mutilated bodies by the roadside to terrorize the population.

The Greek western squadron has bombarded the village of Sykia, on the coast of Epirus, between Nicopolis and Elia, where the Turkish provision depots are located.

Porte Denics Holy War Rumor.

Constantinople, May 12.-The porte has given a positive official denial to the statement that the sheik ul Islam has issued a circular to the imams in Constantinople and the provinces foreshadowing a holy war and to the report that the sacred edict was already being prepared.

Was Due d'Aumale Married? London, May 12.-According to a dispatch from Paris to the Daily Chronicle, the question whether the late Duc d'Aumale was ever secretly married is rendered more delicate and complex by the fact that there is a lady residing on the Chantilly domain who has always been admitted into the inner family

circle. She often shared in the literary

work of the late duc, who, it is believed,

SURVIVORS LANDED.

A Schooner Saves Thirty-two Men From a Wrecked Bark. St. Johns, N. F., May 12.—The French

fishing schooner St. Clair arrived at St. Pierre, bringing 32 men, comprising the crew of the French bark St. Jean, Captain Millard, from Focamp, which collided on the Grand banks on May S with the Norwegian bark Loining, a vessel of 1,800 tons, during a dense fog.

The St. Jean leaked so badly that the crew took to the dories, and the vessel sank four hours after. The St. Clair picked the crew up the next morn-

The Norwegian vessel was even more damaged than the St. Jean, and it is feared that she sank shortly after the accident. It is not known whether the crew escaped. She drifted away in the fog, and when the weather cleared the next morning neither the vessel nor any of her boats could be sighted.

PENSION FRAUDS.

Imprisoned For Impersonating a Special Examiner of the Bureau.

Washington, May 12.-The pension bureau has been notified that James H. Ferguson, an alleged imposter, impersonating a special examiner of the bureau, pleaded guilty at Portsmouth, N. H., of violating the act of April 18, 1884, and was sentenced to 18 months' imprisonment in the penitentiary. The action is a source of much congratulation to the pension authorities.

Ferguson is alleged to have operated in the states of Ohio, West Virginia, Pennsylvania, Massachusetts and New Hampshire, pretending to appoint agents or inspectors at a salary of \$60 per month and expenses, first obtaining \$10 dollars from each dupe on the plea that it was security for handcuffs and

Indians Present Large Claims.

Providence, May 12.-The Narragansett tribe of Indians, which is engaged in pressing its claim for \$14,000,000 against the state of Rhode Island, filed its question of rights with the clerk of the judiciary committee of the senate, and the document will at once be submitted to the supreme court. The Indians dispute the authority of the state to pass laws taking the property of the Indians and validating all titles to land that had been purchased by private individuals from the last King Ninegret. The case is an important one as it involves the titles to the bulk of the property in the southern part of the

Mrs. Acklan Gets a Divorce.

Dover, Del., May 12.-The bill to divorce Mrs. Laura Crocker Ackian of Cleveland, daughter of ex-Judge Crocker, the Cleveland millionaire, from William H. Acklan of Washington, has passed the senate. There has been considerable controversy over the case, growing out of the numerous charges of bribery and corruption. Mr. and Mrs. Acklan were married last June. After the marriage they went to Europe and soon afterward separated. Mrs. Ackian came here last March and took up her residence in order to apply to the legislature for a divorce. Cruel treatment was the basis for the suit.

IMPORTANTLAW CASE

Decision In a Suit Concerning Very Valuable Land.

MINNESOTA CITIES ARE INVOLVED.

The Property Was Bought When the Sites Were In the Wilderness, but Now Are Parts of Great Towns

Albany, May 12.—The New York state court of appeals has just decided a case of great importance not only to the litigants, in this state, but to Minneapolis and St. Paul people. The case decided was that of Hannah Niedlinger et al. versus Mayer A. Bernheimer et al., executors of Isaac Bernheimer, deceased, respondents, and Augusta Niedlinger et al., appellants, in which the latter tried to set aside a sale of land upon which the cities of St. Paul and Minneapolis now stand to the respondents. The court refuses to do

this, and the sale stands. The story of the case runs back for 50 years. In 1855 the firm of Bernheimer Bros., New York merchants, consisting of three members; the firm of Arnold, Nusbaum & Niedlinger, mer-chants of I-iladelphia, in which firm Jacob Niedlinger had a one-third interest, and one Mayer Arnold of Philadelphia entered into an agreement to purchase an immense tract of land in Minnesota, at that date a comparative wilderness. The cities of St. Paul and Minneapolis stand on a portion of this original purchase. In all divisions the

profits were to be on a one-third basis. In 1859 the parties resolved that on a portion of the land purchased they would lay out a town to be called Chicago City. In this enterprise Bernheimer Bros. were to have threesevenths, Arnold, Nusbaum & Niedlinger the same and Mayer Arnold one-

Money Spent on the Property.

In pursuance of this plan large amounts of money were expended in the purchase of lands and the development of Chicago City. Bernheimer at all times controlled the enterprise, but the other parties furnished the money. The sum contributed by Isaac Niedlinger, with the interest to Dec. 31, 1883, amounted to \$52,072, and a small por-Lion of the land was sold to the St. Paul

Improvement company for \$48,000. During the early years of the enterprise the various parties contributed large sums of money toward perfecting and placing it upon a paying basis. In June, 1887, Jacob Niedlinger sold his one-ninth interest in the Minnesota purchase to Isaac Bernheimer for \$9,000. Niedlinger's death occurred the following August. One-half of this, or a oneeighteenth interest in the property, has been recovered by the heirs of Jacob

Niedlinger. The last suit was to set aside the sale of the one-ninth interest on the ground that the sale was made by the deceased without sufficient knowledge of the value or location of the lands, and that his position was taken advantage of by the purchaser, who was thoroughly aware of the great bargains he was securing.

Another significant feature of the controversy is that when the action was begun, in 1893, the property was far less valuable than now, and Bernheimer was willing to account to the heirs of Frederick Niedlinger for the gains of the property held in trust.

The decision of the referee on the first trial in this action was made in 1888. Since then the land has wonderfully increased in value, many of St. Paul's business blocks being erected upon it. and Bernheimer appealed, claiming to hold the land as his own. The court decides against Niedlinger and in favor of the heirs of Bernheimer.

Inheritance Law Tax,

Springfield, Ills., May 12.-The Illinois supreme court decided the inheritance tax law, passed by the state legislature two years ago, to be constitutional, reversing the decision of the lower court. The law provides for a graduated tax on all inheritances of a value of over \$4,000, and a test case was made on the estate of the late John B. EDHEM PASHA'S HISTORY.

The Turkish Commander Is of Christian Parentage.

But, Like Most Renegades, He Has Degenerated Into a Vindictive Mussulman-His Brother a Catholic Priest.

Edhem Pasha, the Turkish com-

mander, has an interesting history. He is not only of Greek origin, but also of Christian parentage, though now he is an enthusiastic and fanatic Mohammedan and loyal subject of the present sultan. He was born on the beautiful island

of Chio, in the Ægean sea. This island was famous in ancient history, and is said to have been the birthplace of the Gulf of Smyrna. It is known for As your products eness, mild el mate and natural benuty

For centuries ("...o has been under Turkish rule, aithough t' - lergest part of its population is of Greek at the the many wars and insurrections for Grecian liberty the people of this island have always borne the brunt of Turkish cruelty and tyranny. This was especially true in 1822, when the Greeks began a long struggle for freedom. Edhem Pasha was then a small child. The inhabitants of Chio did not participate in the insurrections which occurred in that year, but were following their usual occupations. A body of revolutionists came from the island of Samos and landed in Chio. They endeavored to excite the inhabitants to revolt, but met with no success. The Chiotes answered that it would be foolish for them to revolt, because the absence of a a Greek fleet rendered them almost certain prey to the sultan's troops on the mainland. The Samians, however, persisted and laid siege to the citadel, then occupied by a Turkish garrison. The Turkish soldiers were driven out and

after an army of 7,000 Turks, with a host of tanatical volunteers, landed on the island. For weeks after the soldiers and the roving hordes of Ottomans slew. Pillaged and tortured the inhabitants. In parts of the island the people took refuge in the monasteries, but, notwithstanding, were slaughtered by thousands. Even the sick in hospitals were not spared. More than 23,000 men. women and children were killed, 5,000 escaped and 47,000 were sold into slavery and glutted the slave markets of Egypt, Constantinople and Tunis.

Edhem Pasha's parents were among the killed. He was sold to a Turkish general, Khosseo Pasha, who took him to Constantinople. His master gave him his liberty, and in 1831, with a number of other boys, he was sent to Paris to be educated. He entered the Institut Barbet, where he remained for four years. He evinced great industry and intelligence, and his teachers predicted for him a great future and brilliant career. After being graduated from this school with great honors he entered a school of mines, and four more years were spent in close application and study. After traveling through France, Germany and Switzerland he returned to Constantinople and was appointed a captain on the general staff of the Turkish army.

In 1849 the suitan made him his adjutant, and Edhem also became French instructor of the late Sultan Murad and of the present ruler, Audul Hamid. Later a number of important political missions were intrusted to him. In 1856 he became a member of the council of state, and was then appointed minister of the interior, but resigned his portfolio after a year. In 1867 he became the minister of foreign affairs and represented his country at the court of Berlin. In 1877, upon the banishment of Midhat Pasha, he became grand vizier. In 1879 he was the Turkish ambassador at Vienna. From 1883 to 1883 he was again minister of the interior.

Edhem Pasha has always shown great hatred against foreigners and Christianity. At the peace conference at the end of the Russian-Turkish war he was the last of the Turkish ministers to give his consent to the cessation of hostilities. He has always been an enthusiastic Chauvinist. He is a zealous member of the Young Turkish party. which has proclaimed the doctrine of the greatness of Islam and Turkey for the Turks.

It is interesting to note, says the New York Sun, that Edhem's brother was for many years a Catholic priest in Constantinople, and died a few years ago.

A Roland for His Oliver. Viscountess Sherbrooke, wife of Rob-

ert Lowe, was in the habit of saying whatever came into her mind at the moment. The French ambassador, one day, said to her, somewhat patronizingly: "You know, England is said to be a land of shopkeepers. I had no idea of finding such great military displays." "Ah!" she replied, "the people of different countries do not understand each other. Now, I have actually been Chronicle.

POSTAL FACILITIES IN 1800.

A Business Letter's Slow Stages a Century Ago.

In 1800 not only was the field of businessenterprise restricted, but the transaction of business within that field was slow and difficult, says the Atlantic. The merchant kept his own books, or as we would have said, his own accounts; wrote all his letters with a quill and when they were written let the ink dry by sprinkling it with sand. There were then no envelopes, no postage stamps, no letter boxes in the streets, no collection of the mail. The letter written, the paper was carefully folded, sealed with wax or wafer, addressed and carried to the post office, where postage was prepaid at rates which would now seem extortionate. To send a letter which was a single sheet of paper, large or small, from Boston to New York or Philadelphia cost 121/2 and to Washington 25 cents; and this when the purchasing power of a cent was five times what it is at present. To carry a letter from Philadelphia, then the capital of the United States, to Boston and bring back an answer by return mail would have consumed from 12 to 18 days, according to the season of the year and weather.

Melting by Electricity.

Prof. Elihu Thompson, an eminent authority on electric metal-working, believes that there is no doubt whatever of the possibility of melting through masses or iron and steel of even considerable thickness, provided there is lime enough to do it and sufficient current is available; but he thinks the paraphernalia which the burglar would have to carry along and have at his disposal for the attempted work would be a sufficient discouragement in itself, while the time required and the risk of discovery would be so great as to remove the operation from among the possibilities.

Accuracy of the Musical Dar.

An interesting instance of the accuracy with which music that has not been written can be transmitted through the ear and the voice is noted by Miss Alice C. Fletcher in her studies of the songs of the Omaha Indians. One of these songs was recorded by means of a phonograph, and it agreed in every particular with the same song as it had been heard and noted down 12 years

Strange Revenge.

J. A. Morris, the dead lottery king, was once blackballed by the New Orleans Jockey club. Smarting under the affront, he boasted he would one day make the Jockey club grounds a graveyard. When he got richer he secretly bought the property and carried out his threat. It is now one of the leading cemeteries of New Orleans.

BARGAIN-The Word and Its Uses.

The word "Bargain" is trite. So is every word and every subject that must be faced constantly; it has no good synonym. It is the best word in the language to describe merchandise that is offered below normal value.

No other Orange county business ever collected such quantities of as many sorts of superior goods at prices so curiously low.

We MUST tell you about them, therefore we MUST say "Bargains." Until you give us a better word it shall be "Bargains, Bargains," otherwise you won't know. Isn't that clear?

☑ The Ribbon Sale.

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual discase, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, prompted removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by ail who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal eleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneneial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Cc. only and sold by all reputable drugg sts. If in the enjoyment of good health.

and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative. one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely compand gives most general satisfaction. BOARD OF EDUCATION.

Applications for Positions—Mr. Finn offers a Prize for the Best Oration-Mr. Mullison's Fine Paid-State Money Received-Amendments to the Manual -Other Business.

The Board of Education held a regular meeting, last evening, present, Pres. H. W. Wiggins, Messrs. Finn, Howell, Purdy, Martin, Hanford, Royce, Harding and Supt. Tutbill.

Applications from Helen S. Wheat and Edith Benedict for positions as teachers, from L. E. Amiden for position as princi pal or superintendent and from John R. Walling as janitor of new High School were received and ordered filed.

A communication was received from Daniel rinn offering a prize of \$10 to the male member of the graduating class of '97, whose commencement oration, taking into consideration the oration and its delivery, is the best; no member of the class to be eligible to compete for this prize whose oration contains more than six hundred words. The award is to be made by a committee of three, to be appointed by the superintendent of schools: no teacher in the schools nor member of the Board of Education to be a member of the committee of award. The communication was filed.

A draft of \$5 was ordered drawn to the order of J. C. Mullison to reinburse him for the fine recently imposed by the Re-

The Superintendent reported that Wallace Smith had been sent to the White Plains truant home.

Mr. Hunford was empowered to sell sixteen old desks and seats for \$1.50 each, the same to be removed by the purchasers before July 1st.

The Clerk reported the receipt of \$6,840.78 from the County Treasurer, being the amount of the State apportionment.

Mr. Howell reported the receipt of \$2.50 for old seats sold, and the amount was ordered deposited with the City Treasurer.

The President was ordered to appoint a committee of three to consider amendments and additions to the manual and report to the Board at a special meeting to be held in July.

Drafts for payments on account of High School building contracts were ordered to Degnan Plumbing Company, \$500, and E. McWilliams, \$2,250.

The President announced the appointment of school committees as already published in the Augre.

The Board decided that all teachers desiring reappointment must file their applications with the Clerk on or before

A Pleasant, Simple. but Sate and Effeetual Cure for It.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings. a formation of gases, causing pressure on the heart and lungs and difficult breathing; headaches, fickle appetite, nervousness and a general played out. languid feeling.

There is often a foul taste in the mouth. coated tongue, and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily. thoroughly digested before it bastime to feriaent and irritate the delicate inucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do, and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanson the salest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nux, Golden Sear and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine can be used with perfect safety and assurance that healthy appente and thorough digestion will tonow their regular use after ineals. N. J. Booher, 6: 2,710 Dearbon street, Ghicago, Ill., writes: "Catarrii is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous disenarge therefrom passing backwardiato the throat reaches the stomuch, thus producing catarrh or the stomach. Medical authorities prescribed cannot find appropriate words to express petite and sound rest from their use."

Stuart's Dyspepsia Tablets is the saiest preparation as well as the simplest and most convenient remedy for any form of hidigestion, catarrh of stomach, binousmes, sour stomuch, imartburn and bloating after meals.

FELT BY RABBIT NERVE.

Lifeless Arm Restored by Graft from Freshly Killed Animal.

To have the sense of touch and power of action restored in the lower half of a lifeless arm is the experience recently bestowed on an English gardener. The case is noted in the British Medical Journal and has attracted widespread attention in Europe. The upper and inner half of the right arm was severed with a scythe. The artery was ligated and the two ends of the divided nerve sutured.

In the absence of more suitable tissue the spinal cord of a rabbit just killed was used as a graft to connect the ends of the median nerve, the inserted cord lying loose and quite free from tension when finally placed in position. Fine catgut sutures were used throughout. Eleven days after the operation the patient could feel the scratch of a pin on the flexor aspect of the first phalanx of the thumb, as well as at the root of the index finger. He could tell when the hairs on the back of the first phalanges of the ring and little fingers were touched, but could not feel the scratch of a pin in that situation. Seven days later sensation had returned over the whole of the palmar surface of the thumb and the proximate phalanx of the index finger.

After an interval of 16 days sensation seemed to be creeping slowly along the first finger and to be present over the whole of the palmar area supplied by the median nerve and extending down as far as the web of the fingers and a short distance along the middle finger. The muscles presented evidences of gradual development and the general nutrition of the hand improved, and soon the hand was "as good as new."

The Albany Argus is very felicitous when it says: "People who don't like the new tariff bill are invited to wait till they buy goods under it, and see if it isn't just the dearest thing."

Ben Odell was slapped in the face, yesterday, by President McKinley, who turned down his candidate, Lew Goodsell, and gave the West Point post office to Miss Newlands. It was a case of the army against the politicians, and the army won, hands down, but it confirms the horrible suspicion which is finding lodgement in many a Republican's breast that Boss Odell isn't as big a man in Washington as he seems to be in his "deestrick," and when faith in a boss's prestige is once shaken, his power begins to wane.

The Herald has made a poll of the Senate and aunounces that it finds a majority of the Senators opposed to the sugar schedule as prepared by the Republican members of the Finance Committee in the interest of the Sugar Trust. It must not be assumed from this showing that the schedule will be rejected. Before a vote is taken the minds of many lief. Senators will be illumined by the per- The body was taken to Otisville, to suasive arguments of the agents of the day, where funeral services were held. The power and influence of the League of American Wheelmen are most conspicuously shown in the action of the Passenger Committee of the Trunk Line Association which, yesterday, decided to accept bicycles as baggage between States. The agitation of this matter was begun by the wheelmen seventeen months ago. In spite of the opposition of the railroads they got through the New York legislature, last year, the bill requiring railroads to transport bieyeles as baggage and from that as a beginning the agitation has, been continued until the railroads, submitting to the inevitable, have made concession after concession, until at last all restrictions have been removed and all the principal roads will hereafter carry wheels for passengers without extra charge.

The action of the Board of Education in ordering a draft for \$5 in favor of J. C. Mullison to reimburse him for the fine which he paid for beating a pupil seems like a most unwarrantable use of the people's money. It is of a piece with the action of the Water Commissioners in anditing a bill of \$15 for flowers, placed on the coffin of the late Superintendent. Aside from the more than doubtful propriety of paying such a bill out of the public funds, such payment robs the floral tribute of all significance. Flowers sent to Mr. Van Duzer's finneral by the Water Commissioners at their own cost would have been a graceful and kindly recognition of personal and official worth, and would have been expressive of regret at the severance of personal and official ties, while flowers sent at public cost are worse than meaningless,—a perfunctory contribution to untside show.

You will read of many so-called cures But they come from far-away places. It's different when the indorsement comes from home.

Easy to prove that it is so. Home indorsement is the proof that backs every box of Doan's Kidney Pills.

Read this case: Mr. C. R. Truesdale, No. 108 North street, says: "When you find out a good thing that would be of no loss to you if you should tell your friends, push it along in keeping with its merits. For four or five years my kidneys have bothered me. Pain in the lower part of the back and in one side proved this. It is possible it arose from a strain while lifting, because I frequently exert myself in that way, Often in the morning I could hardly get out of bed, my back was so painful and stiff. If I caught cold I was always worse, for it settled in my back. Stooping over or occupying any position that strained my back hurt me. I tried every remedy I knew about, and lots prescribed by friends. They were useless. I tried Donn's Kidney's Pills, procuring them from J. E. Mills' drug store. They cured me. I never felt better in my life. Doan's Kidney Pills deserve all the credit for it. I shall do all I can to tell others of their

THE COUNTY FAIR GROUNDS.

The Plans for Their Improvement—How They Will Be Laid out-Work to Be Begun at Once.

Superintendent J. E. Wells and Directors Clark, Swayze and Thompson, of the Orange County Agricultural Society. an empanied by Assistant Superintendent C. L. Elwood and E. A. Brown, visited the mir grounds, yesterday morning, and talk dover the proposed plans for the improvement of the grounds. A vast amount of hard work will be necessary in order to get the grounds into the condition desired by the society, and Superintendent Wells announced that work would be commenced at once.

The question of dramage is one of the most important matters to be considered, and this work will be done first by rienas of blind ditches. Stone walls are to be removed and the highway widened

A FRUITLESS BURGLARY.

A Trunk Containing Considerable Money and Many Valuable Articles Stolen from a Syrian's Store, but Abandoned by the Thieves Before They Could Mitte It.

Walter Barry, of No. 40 Montgomery street, was awakened about 1 o'clock; this morning, by a crash of glass, and an investigation showed that a large pane of glass had been knocked out of the door of the store next door, No. 42, occupied by Elias Anton Hage, a Syrian pedlar.

Mr. Barry dressed and came up town to notify the police, who returned at once to the place. Mr. Hage is away on a trip, and Mrs. Hage and an infant were found in the rear room badly frightened. She said she heard several men enter the store, but she was so paralyzed with fright that she was unable to make an outcry. She discovered that a large Saratoga trunk had been taken from the store, in which, she claimed, were \$300 in money and other articles of value.

Mrs. Hage could not give a description of the men, as she did not see them, but she said that during the evening she had opened the trunk to secure change for a \$5 bill offered by an Italian, and that while she was so engaged two young men entered the store and saw her count-

The police scattered about the O. and W. yard and visited several barns and outbuildings in the neighborhood, where they have found stolen booty on former occasions. Their search was useless, however, and it was not until daylight appeared that the missing trunk was found in alleyway directly across the street from Mrs. Hage's store.

The locks and hinges were intact and had not been disturbed, and the \$300 proved to be \$30.25. This Mrs. Hage said was all right, and that her unfamiliarity with American money led her to make the misstatement.

It is thought that the thieves abandoned their booty when they saw that Mr. Barry was aroused, and the presence of the officers in the neighborhood made them airaid to return for it later.

The police are satisfied that they know who did the deed, but as there is no evidence upon which to convict, it is probable that no arrests will be made.

ABOUT BASE BALL.

Teams Organizing Throughout the County, Why Not In Middletown?

The Walden base ball team which put up several good games with the A-ylums was reorganized for the season of '97. last week. Several other teams have been organized in the county but it seems as though Middletown players had lost interest in the national game and had gone mad on cycling. The admirers and patrons of the game are anxions to see some movement toward reorganizing the Asylums or the forming or a first class team in the city.

A VERY NARROW ESCAPE.

A Man's Life Saved by Wotorman Reed's Promptness and Presence of Mind.

Yesterday afternoon as the 3:30 car started for Goshen from the Square, a man ran from the sidewalk and attempted to jump on the front step. He slipped and fell turning a complete somersault and landing with his body across the rail directly in front of the ear. Persons who saw the man fall expected to see him ground to pieces and some held their breaths and watched while others turned away unwilling to witness the sight.

George Reed was the motorman. He is one of the coclest men on the road and has never had an accident. He took in the situation instantly and acted promptly, reversing the motor and bringing the car to a standstill when the wheels were within a few inches of the man. He then got down and assisted him on the car.

The onlookers were greatly relieved and are not yet done praising Mr. Reed for saving the man's life. A less experienced or cool headed motorman would surely have run over the man.

A WOMAN'S PITIFUL STORY.

Begging Money to Enable Her to Reach Her Home in Pennsylvania.

A woman, claiming to be Mrs. O'Connor, of Newcastle, Pa., was soliciting financial aid in town, last evening. She told a pitiful story of how her husband went to New York to secure employment, several weeks ago, and sickened and died of fever, leaving her entirely destitute, after attending the funeral. The woman said she was endeavoring to make her way back to Newcastle, where she had an aged father and mother and several children dependent upon her for support. A paper which the woman exhibited showed that her appeals had been quite successful.

AN IRISH PENNY.

Found By An Italian Laborer While Digging at the Erie Depot.

George W. Ellison, baggage master at the Erie depot, is the proud possessor of an Irish peuny bearing date of 1805. It was found by one of the Italian laborers employed in excavating for the concrete walk at the depor.

On one side of the coin, which is about the size or an English penny, is a barp with the word "Hibernia" above and 1805" below. The opposite side has borne a figure of some kind and an inscription but it is so nearly obliterated that it can not be made out.

THE BOARD OF HEALTH.

Determined to Break Up Violations of the Bumping Ordinance.

 Λ regular meeting of the Board of Health was held last evening. All members were present except G. W. Reed. No contagious diseases of account were

reported. A great number of complaints as to filling in low or sunken land with ashes containing a mixture of vegetable matter were sent in. The Board calls attention to the fact that the grounds for the reception of such matter are beyond the old race course on Academy avenue, and the Board is determined to break up this practice of dumping offal and garbage where anyone sees fit. This ordinance will be enforced.

THE GERMAN REICHSTAG.

As a Parliamentary Body It Is Sui Generia.

Excitement Never is Allowed to Run High-Rights of the President-Some of the Prominent Party Leaders.

[Special Berlin Letter.] The reichstag is a parliamentary body which is strictly sui generis. To compare it, therefore, with congress, with the English parliament, or with the French chamber of deputies, would le a hopeless task. Besides, the reichstag of to-day is not what the reichstag of the Bismarck regime was. There is a good deal less of friction with old, affable Prince Hohenlohe as chancellor than there was then; but, on the

PRINCE HOHENLOHE. (Chancellor of the German Empire.)

other hand, there is, too, much less excitement and interest in its sessions. During this present session, for instance, there were barely four or five days which might be styled exciting. Even then, however, there is not nearly the amount of lively discussion, of noise, of abuse or of bitterness shown on the surface which, on similar occasions, may be noticed in the parliaments of other countries. It is considered bad taste to use direct, aggressive language, and even such violent opposition speakers as Eugene Richter, Bebel, Liebknecht, Lengmann, etc., usually conform to this custom and clothe their scathing criticism in words that often sound curiously moderate to outsiders. And that brings me to remark that the reichstag style of oratory is not the kind that flourishes elsewhere. It is, so to speak, impersonal, tame, objective-"sachlich," as is the technical term here. By that it is, of course, robbed of part of its direct effect, and it often reads much better in print, where the suggestive points may be pondered over at leisure, than it sounds when listened to. Generally speaking, too, the Germans are not oradowed the Latin race much more generously, and the Anglo-Saxon or Celtic sharp and surcastic debates of other A. H. GORDON, Engrayer, representative bodies are seldom if ever found in the reichstag, although it may be said that party spirit runs there as high and deep, and real feeling is often more intense among its leaders. But the German is a reasoner, with a logical, argumentative mind, and that is why they appreciate a speech that is "sachlich" so much.

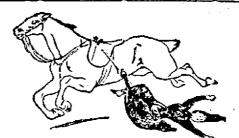

Their parliamentary rules are, in the main, like the American, but not so detailed nor capable of so much flexibility. That is why, on the one hand, the president of the reichstag may limit the rights of a speaker much more closely than he could in America, and, on the other hand, would be practically powerless in the hands of an adroit manipulator of the rules. But thus far, an obstructive policy, such as the home rule men under Parnell used for a time to bring England to her knees, has never been adopted systematically by any of the reichstag factions, although temporary successes might frequently have been achieved that way. Not even the scientists or the Alsatian protesters

BARON VON DIEBERSTEIN. (German Secretary of Foreign Affairs,

ever did that. And, with the inborn sense of fairness which characterizes the Teutonie race, it must be admitted that the dominating parties in the reichstag, such as at present the center, the conservatives, the national liberals, have almost invariably given their opponents a "show," no matter how much it went against their grain. With few exceptions, too, the tone prevailing in the reichstag proceedings is a gentlemanly, courteous one, and, though tempers are often ruffled, particularly when some of the more radical members fling defiance of crown and power into the faces of their opponents, it rarely happens that opprobrious or insulting terms are used, and such scenes as continually happen in the Italian chamber of deputies, where blows are exchanged and the leaders of the whilom government are called "thieves," "bandits," "cutthroats," etc., are unknown in the reichstag.

The session hall is a very fine one, and the immense cupola sheds plenty of light while day lasts, while the hundreds of ineendescent lights effulgently illuminate the scene evenings. Beau-

A Ta Special Term of the Supreme Court of the State of New York, held at the Supreme Chambers, in the city of Newburgh. Orange county, N. Y., on the 3d day of April, 1837.

Present: Hon. Michael H. Hirschberg, Justice. In the matter of the application for a voluntary dissolution of The Middletown Casino Theatre Company, of Middletown, N. Y.

On reading and filing the petition of Edward A. Brown, William D. Stratton, Horace W. Corey and Isaac F. VanDuzer, as the Trustees and Directors of the Middletown Casino Theatre Company of Middletown, N. Y. (a corporation duly created under the laws of the State of New York, having its principal office in the city of Middletown, N. Y.), and the schedule thereto annexed, duly verified by the said petitioners on the 1st day of March, 1897, and now on motion of Daniel Finn, of counsel for the petitioners.

It is ordered that all persons interested in the said corporation show cause before this Court, before William F. O'Neill, Esq., who is hereby appointed Referce for that purnose, at his office, No. 75 North street, in the city of Ailddetown, Orange county, N. Y., on the 13th day of July, 1897, at ten o'clock in the forenoon of that day, why said corporation should not be dissolved, and why the prayer of the said petitioner should not be granted.

And it is further ordered that the said Referce proceed in accordance with the law and practice of this Court, and that he report thereon with all convenient speed.

And it is further ordered that this order be published once in each week for the three weeks immediately preceding the time herein fixed to show cause in the Middletown Daily Press and the Middletown, Orange county, N. tilung carved oaken panemigs surround the walls and all the rest of the woodwork is of the same material. The space allotted, however, to each delegate is much smaller than in congress.

The speaker-or, as he is here called, the president-of the reichstag occupies an immense throne-like seat, and has a gigantic desk in front of him. He uses no gavel, but the bell, one about the size of a cowbell, and can make noise enough with it, I warrant, to drown the shouts of even the most obstreperous orator. The present presiding officer, Baron Buol von Berenberg, however, is as mild-mannered a man as ever out of a speaker, and he dislikes interfering In this he is vastly aided by a natural defect, for he is hard of hearing, and so it not infrequently happens that : cunning orator gets in sidewise, by talking in a rather low voice, remarks which would not otherwise be tolerated by the president, such as criticisms on the emperor, etc. Below the president are the secretaries; they keep track of the list of speakers, and the official stenographers occupy another immense row of desks just below them. In a line with the president's desk are the seats of the government representatives and of the bundesrath, or federal council, a body resembling somewhat our senate, and being coordinate with the reichstag itself, its members being the emissaries of each state government. When the chancellor speaks he does so always from his seat, about three feet below and in a line with the president's. As the acoustics of the session hall, however, are anything but perfect—the wood panels deadening and swallowing up the sound—a speech of importance is always the sign for all the interested members to rise from their seats and form a sort of semicircle below around the speaker. The rule is that each speaker is to ascend the speaker's tribune, or stand, and thence deliver his

words But this rule is, unfortunately. a dead letter and is never enforced, so that all those who wish speak from their seats. As in the reporters' gallery such speeches can be heard only when coming from the further side of the house-and even then but imperfectly -but not at all when arising from that part of the hall immediately below the gallery, the reports published by the newspapers and correspondence syndicates generally vary greatly, and often the meaning of a whole speech is misunderstood up there.

The most brilliant and at the same time convincing speaker the imperial

WILHELM LIEBKNECHT. (Head of the German Socialist Party.)

government now possesses, so far as appearance in the reichstag is concerned, is Baron Marschall von Bieberstein, the foreign secretary. Some of the speeches he made last winter were fine specimens of clear-cut, incisive logic, and in the matter of arguing with an opponent he is even better than Bismurek, whose sledge-hammer eloquence always aimed at immediately silencing and obliterating an adversary, instead of refuting or answering him. On the conservative side Count Mirbach and Baron Manteuffel are the readiest and most powerful speakers, while Earon Stunner, the emperor's friend, is too impulsive and bot-headed in his talk. and thus lays himself open to attack all the while. Count Herbert Bismarck. the old chancellor's eldest, has not inherited the masterful eloquence of his father, and his remarks are usually brief, though to the point. An orator who in his own insidious way is in imitable, and who is a bad man to tackle for anybody, since he is the acknowledged leader of the numerically most formidable faction, the center with its 160 votes, is Dr. Lieber, a handsome. smooth, courteous man of somewhat Jesuitical appearance. Of the socialists -who only number 48 now in the reichstag, although their voting strength at the polls is the largest of any party -Bebel, Auer, Liebknecht, Vollmar, are the ablest speakers. When Vollmar rises in his might and one looks at his classic profile and aristocratic bearing-he is, by right, Baron von Vollmar, and is a man of wealth and a former officer in the Bavarian army who earned his lame leg and his iron cross at Orleans in 1870-one wonders how such a man came among the restless. bitter horde of socialists. In speaking, too, he always remains the gentleman

and government. But a better speaker yet is Bebel who fairly thrills his audience when he is at his best. His sentences then pour out with volcano-like vehemence and burning fire. His face is that of the refined, meditative proletarian who owes his whole education to himself. Old Leibknecht, now past 70, is the veteran of the socialists, and now somewhat prosy and occasionally dull, though not many years ago he was the best

of blue blood, and that makes his bitter

satire all the more galling to emperor

speaker on the socialist side. Other good speakers and men of political influence are Prince Arenberg, of the center, Liebermann von Sonnen-Lerg, the leader of the anti-Semites, Baren von Hodenberg, the Guelph leader, and above all, Levymann, Richter and Rickert. Eugene Richter was, during the Bismarck regime, far-famed because of his doughty opposition to the iron chancellor, but to-day, under the milder sway of Hoheniohe, he has lost a good deal of his vim and virus.

A RECKLESS BANTER ACCEPTED

Four Young Men Make a Midnight Trip to Goshen and Back on Foot-A Thirsty and Weary Party.

About 11 o'clock, last night, four young men who had spent the evening holding up the bar in one of the hotels in this city, were talking about walking, each of the quartette trying to outdo the others in tales or his speed and endurance as a pedestrian.

In an unguarded moment one of the young men said he wouldn't think anything of starting then and walking to Goshen and back, and finally bantered his companions to make the trip. Much to his surprise and chagrin, his companions were eager to accommodate him, and all started out on the road to Goshen. Each would have liked to back out but didn't dare say so, and the party trudged all the way to Goshen and back, arriving home at 3 o'clock, this morn-

They were a weary and thirsty party. The beers that had been consumed in the early evening made more beer after their long walk almost a necessity, but they couldn't get it. Every place in Goslien was closed when they arrived there and there wasn't a place open on the road or in Middletown when they returned.

KNIGHTS AND LADIES OF HONOR Annual Meeting of the Grand Lodge in

The Grand Lodge of the Knights and Ladies of Honor began its session in Port Jervis, yesterday. Severalhundred delegates from all parts of the State are

At the opening session of the lodge the delegates were welcomed to Port Jervis by Judge Fullerton, who spoke in behalf of George Schoonover, President of the village. Mr. Schoonover also made a brief address of welcome,

There are three lodges of this order in Port Jervis and one in Sparrowbush, all of which have a large membersh p and are in a flourishing condition. One of the Port Jervis lodges is composed of Ger-

BURGLARY AT PORT JERVIS.

The Store of A. Cuff & son Enfered and Robbed of Bry Goods and Groceries.

The store of A. Cuff & Son, in Port Jervis, was entered by burg'ars early Tuesday morning and robbed or about \$100 worth of dry goods and groceries. Entrance was elected by breaking in a rear window. The noise was heard by a passing beyelist who notified the police, but when they reached the store the thieves had gone. Most of the dry goods taken were recovered during the day, the thieves having left them on the rear porch of a house on Third street.

The burglary is believed to have been the work or local talent for the thieves were evidently familiar with the interior Of the store. No arrests have yet been

Two Italian Laborers Injured.

Two Italian laborers of the Erse gang were slightly injured while at work near the James street depot, yesterday. One was struck on the head by the cross beam of a passing engine but was able to continue his work; the other had a finger badly lacerated by having it caught between two ties while loading them on a freight car.

Put in First Class Order.

The Homestead Building and Loan As sociation, which owns the Sateliffe property on Roberts street, has given the house a thorough overhauling and put it in first class shape. It has been painted and papered throughout and the old plumbing taken out and replaced with

WISE WOMEN.

Those Who Heed the First Symptoms of Nervous Derangement.

Special from Mrs. Pinkham.

A dull, aching pain at the lower part of the back and a sensation of little rills of heat, or chills running down the spine, are symptoms of general

womb derangement. If these symptoms are not accompa-

nied by leucorrh ∞ a, they f are precursors of that weakness. It is worse than folly to neglect these symptoms. Any woman of common sense will take steps to cure herself. She will realize that

her generative system is in need of help, and

that a good restorative medicine is a positive necessity. It must be a medicine with specific virtues. As a friend, a woman friend, let me advise the use of Lydia E. Pinkham's Vegetable Compound.

If your case has progressed so that a troublesome discharge is already established, do not delay, take the Vegetable Compound at once, so as to tone up your whole nervous system; you can get it at any reliable drug store. You ought also to use a local application, or else the corrosive discharge will set up an inflammation and hardening of the parts. Mrs. Pinkham's Sanative Wash is put up in packets at 25 cents each. To relieve this painful condition this Sanative Wash is worth its weight in gold.

MRS. GEORGE W. SHEPARD, Watervliet, N. Y., says: "I am glad to state that I am cured from the worst form of female weakness. I was troubled very much with leucorrhea, bearing-down pains and backache. Before using Mrs. Pinkham's Remedies it seemed that I had no strength at all. I was in pain all over. I began to feel better after taking the first dose of Vegetable Compound. I have used five bottles, and I feel like a new woman. I know if other suffering women would only try it, it would help them."

Population of the State Hospital.

According to the Conglomerate Tues day there were 1.198 patients in the State Homeopathic Hospital for the Insane, in this city, of whom 593 were males and 605 females. During the week three were admitted and five were discharged.

THE SNAKE SEASON OPENED.

First Snake Story of '97 from Black Snake Ridge, Near Purdy's Station.

Black Snake Ridge is the local name of au high and rocky piece of ground on the farm occupied by David and George Decker, near Purdy's Station. It has furnished many a good snake story for the newspapers and best of all they were always true.

The Messrs. Decker have tried for years to exterminate these serpents, but without success. They breed faster than they can be killed off, the rocks affording them a safe refuge from snake hunters.

The snake season opened at this place Sunday when the Messrs. Decker chased a huge blacksnake into a stone wall. About a foot of the tail protruded and they began to pull and finally tore the snake in two, about eighteen inches of the tail remaining in their hands.

The following day when near the sam place they found the other end of the snake. It was as lively as if it had its whole body and gave them quite a chase before they caught and killed it. The snake measured a little over five feet.
